when will love come to me when will love set me free
I just can't go on like this forever I'm so lonely I could
almost die seems I'm always playing solitaire no one
round but me myself and I when will love come to me
when will love set me free no one ever sees the tears
I'm crying (crying) I've got no one to chase away my
blues my heart is torn apart there's no denying but I
need someone to tell my troubles to... I'm so lost
without it what can I do about it I see love everywhere
when will I get my share-will love come to me when
will love set me free when will love (come) oh when
will it come to me when will love set me free free
when when (will love) when will love (come) oh when
will it come to me I want to know (when) when will
love sweet love (set) when will it set me free oh..
when will love (come) when will it come to me...
